

Putting innovation to the test

 **TestEquity (Europe)**

TestEquity is the industry's largest authorised distributor of test and measurement equipment, environmental test chambers, and production supplies.

We offer new equipment, certified pre-owned equipment, flexible rental options and UKAS-accredited calibration services. With the widest selection and deep technical expertise, we're here to help you find the right solution for your application.

Our services

NEW EQUIPMENT:

Get the latest test and measurement equipment with full warranty and expert support for your most demanding applications.

RENTAL:

Flexible rental options from a large inventory of high-performance equipment. Benefit from competitive pricing, dedicated account managers, and next-day delivery.

PRE-OWNED:

Certified pre-owned equipment sourced globally, offering cost-effective solutions without compromising quality or reliability.

CALIBRATION:

UKAS-accredited calibration services for a wide range of equipment, ensuring accuracy, compliance, and optimal performance.

FINANCE:

Tailored finance packages to help you acquire the equipment you need now, spreading costs over time without impacting capital budgets.

We're here to help you find the right solution for your application

Why choose TestEquity?

Access the Best in T&M

Explore over 100,000 products from leading brands such as Keysight, Tektronix, VIAVI, and Rohde & Schwarz – all in one place.

Technical Support for Your Industry

We serve Aerospace, Communications, Automotive, Semiconductor, Education, Manufacturing, Medical, and High-Precision sectors with deep application knowledge tailored to your needs.

Product categories

EMC and RF Measurement

Electromagnetic Compatibility
RF Measurement
RF Test Accessories

Data Acquisition and Meters

AC Power Quality Analysers
Multi meters
Data Acquisition
Electrical Testers and Analysers
Hipot, Electrical Safety
Thermal Imaging
Environmental and Temperature Testers
Mechanical Properties Test Meters
Calibrators
Panel Meters
Test Leads and Accessories

Networking and Wireless Communication

Fiber Optic
Wireless Communication Test Equipment
Testers and Strippers
TV and Video

Oscilloscopes

Digital Oscilloscopes
PC Based Oscilloscopes
Handheld Oscilloscopes
Oscilloscope Upgrades and Options
Oscilloscope Probes and Accessories
Oscilloscope Bags, Carts and Cases

Power Supplies

DC Power Supplies
Source Measure Units
AC Power Sources
Electronic Loads
Power Supply Options and Accessories

Flexible Ways to Equip Your Team

Choose new, pre-owned, or rental equipment, plus repair and calibration services to keep your operations running smoothly.

Independent Technical Guidance

Our brand-agnostic technical expertise means we recommend what's best for your needs – backed by 100+ technical experts ready to solve your toughest challenges.

Network and Spectrum Analysers

Network Analysers
Spectrum Analysers
Protocol Analysers
Signal Source Analysers
Analyser Accessories

Signal Generators and Counters

Function-Arb Waveform Generators
RF and Microwave Signal Generators
RF Counters
Universal Counters
Pulse Generators
Signal Generator and Counter Accessories

Component Measurement

LCR Impedance
Battery Analysers
Semiconductor Analysers

Environmental Chambers

Forced Air Ovens
Temperature Chambers
Accessories and Parts
Gravity Convection Ovens
Vacuum Ovens
Laboratory Equipment

Electronic Production Supplies

Bottles and Dispensers
Chemicals, Cleaning and Abrasives
Hand and Power Tools
Labels, Printers and Paper Supplies
Power Management
Static Protection
Storage and Handling
